JMBAXI
THE PORT SPECIALIST
Creating opportunities

Creating opportunities

The J M Baxi group prides itself in being a 108 year old business conglomerate within the trade and shipping sector through service offerings in the Marine Services, Ports & Logistics and Technology sector. Professionally managed companies within the group span the entire logistics services value chain including.

Port facilities | container and multi-cargo port terminals, cruise terminals, container freight stations, inland container depots and rails.

Niche logistics services | bulk cargo, project cargo, offshore installation and ship agency services.

Marine Services:

Our long established data-driven business vertical. Combined, all the marine services companies of the group collectively make the group India's largest professional and integrated marine agency.

Ports & Logistics:

As a part of the infrastructure and logistics vertical, the group caters to a need for specially designed shipping logistics infrastructure including port facilities such as container and multi-cargo port terminal.

Technology:

This decade-old vertical has a keen presence in water, communications and digital solutions for the maritime trade. The youngest and most dynamic space in the group.

MESSAGE

I am glad to note that FICCI, with the support of the Indian Ports Association (IPA), is organizing the **Maritime India Conference & Expo (MICE 2025)** scheduled to take place from 22nd to 24th January 2025 at the Bombay Exhibition Centre, Goregaon East, Mumbai. This flagship initiative serves as a key platform to showcase the progress and potential of India's maritime sector.

The maritime industry has been a cornerstone of India's economic growth and a key enabler of global trade. Recent years have witnessed transformative developments in the sector, focusing on modernizing port infrastructure, enhancing coastal shipping, and promoting inland waterways. The sector is now aligning with the Hon'ble Prime Minister's vision of "Viksit Bharat," prioritizing green and sustainable shipping, the development of smart and efficient ports, and expanding maritime logistics networks.

Emphasis is being placed on building multimodal connectivity, advancing shipbuilding and repair capabilities, fostering cruise tourism, and strengthening India's position as a global maritime hub. These efforts aim to integrate cutting-edge technologies, boost economic efficiency, and ensure environmentally sustainable practices, reflecting India's ambitious maritime vision for 2047.

Sustainability and innovation have become focal points for the maritime sector in India. With initiatives to adopt green and smart technologies, the industry is transitioning towards cleaner and more efficient practices. The development of inland waterways and coastal shipping corridors, coupled with efforts to establish India as a global cruise tourism destination, highlights the sector's dynamic and multi-faceted growth. This trajectory reflects the critical role of the maritime sector in achieving India's long-term economic and environmental goals.

This mega event provides an excellent opportunity to bring together stakeholders from across the globe to exchange innovative ideas, share best practices, and explore avenues for collaboration in the maritime industry. The wide array of themes, ranging from building safer and smarter ports to advancing shipbuilding capabilities and promoting cruise tourism, promises a comprehensive discussion on the future of maritime development. I am confident that **MICE 2025** will serve as a vital platform to chart a course for the sustainable growth of India's maritime sector.

I extend my best wishes to FICCI and all the participants and wish the event great success.

Jai Hind.

MESSAGE

India's maritime sector is undergoing a dynamic transformation, emerging as a cornerstone of the nation's economic growth and global ambitions. With strategic government initiatives such as Maritime India Vision 2030, Sagarmala and Green Shipping Mission, the sector is being reshaped to align with India's commitment to sustainability, technological advancement and global competitiveness. These efforts aim to modernize infrastructure, enhance port efficiency and progressively integrate cutting-edge green technologies, positioning India as a leader in the global maritime ecosystem.

It is, therefore, timely and quite significant that the Maritime India Conference & Expo 2025 is scheduled on 22-24 January 2025 at the Bombay Exhibition Centre, Mumbai. This flagship event will provide a comprehensive platform to explore the latest advancements in port infrastructure, shipbuilding, ship repair, green shipping and logistics, while also showcasing India's immense potential as a world-class maritime tourism destination. Bringing together policymakers, global & domestic industry leaders, technology innovators, investors and academia, the event aims to foster collaboration and chart a transformative path for India's maritime sector.

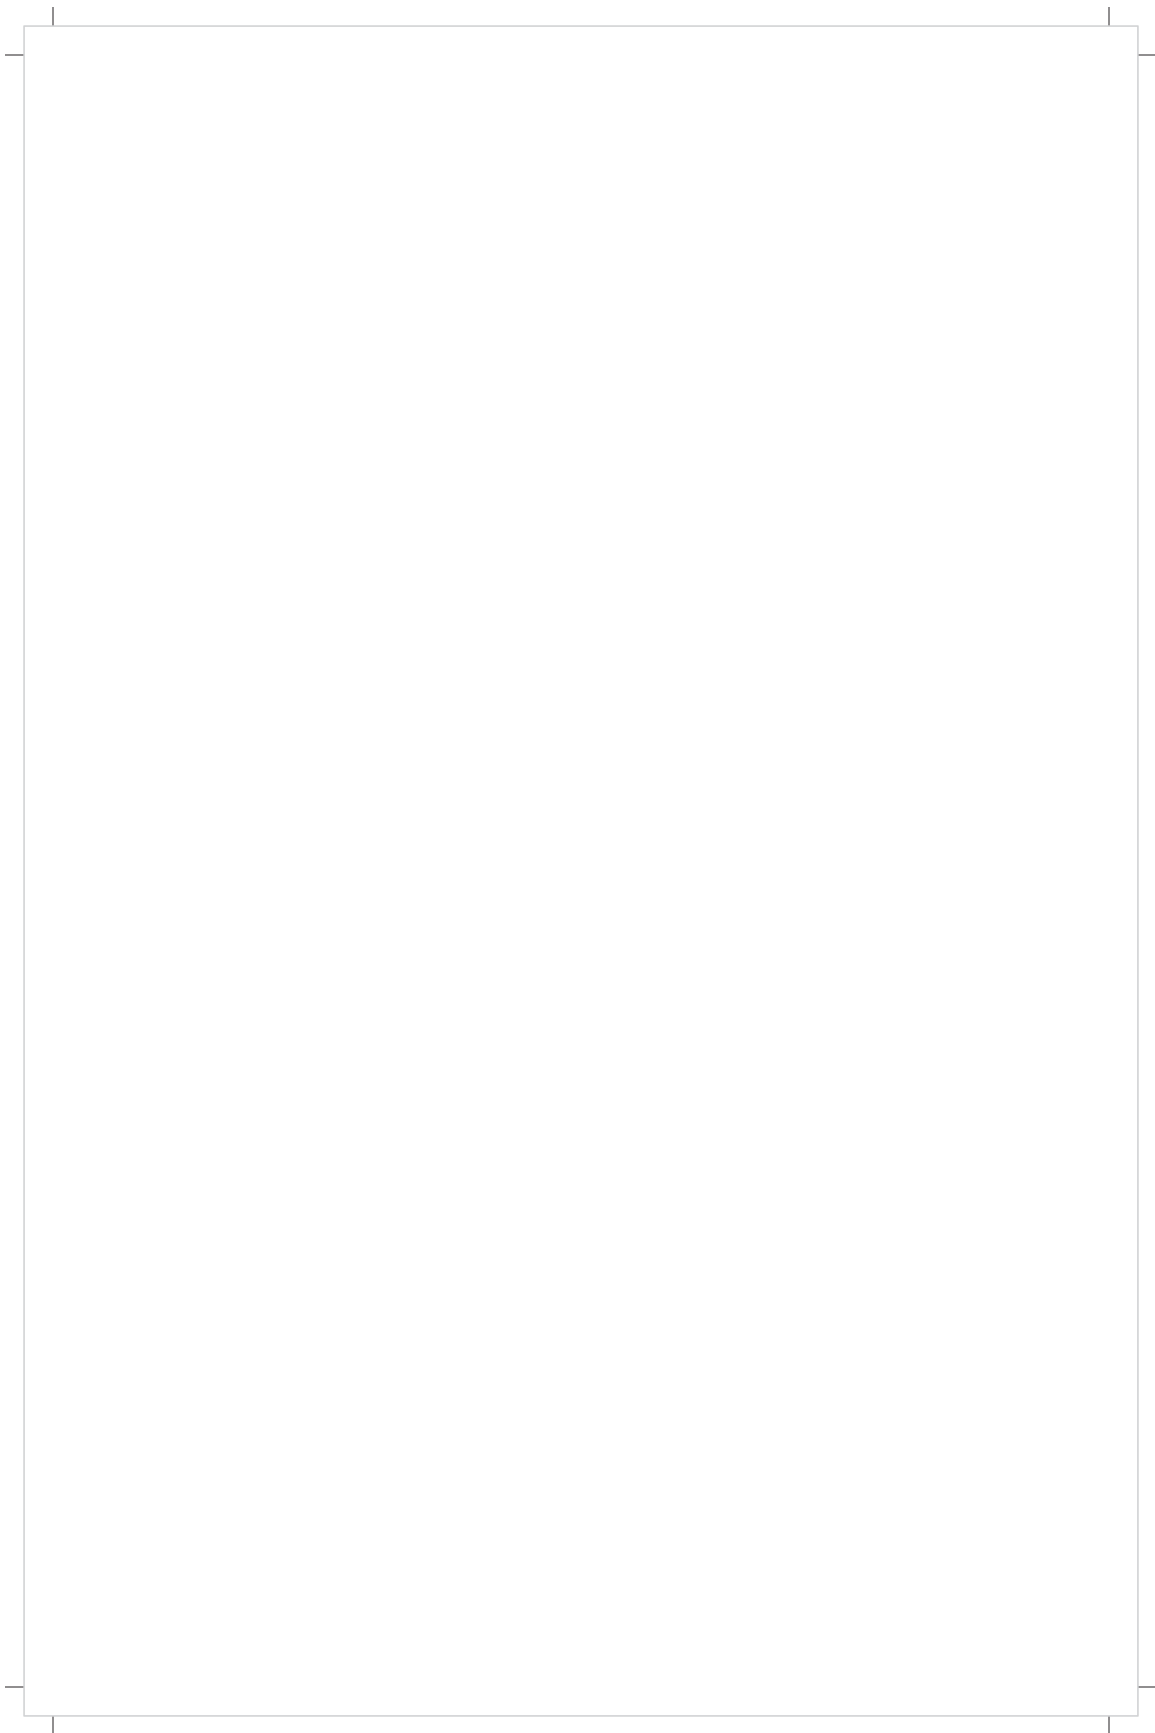

The Maritime India Conference & Expo 2025 will not only provide insights into India's ambitious vision 2047 for the sector but will also enable meaningful discussions on collaborative strategies to drive sustainable growth. The Expo will feature state-of-the-art technologies and solutions that promise to redefine the maritime ecosystem.

I would like to thank our partners, sponsors, exhibitors and other stakeholders for the valuable support in organizing this important event. Together, we aim to harness the full potential of India's maritime sector to drive economic progress and strengthen global connectivity.

I wish the event great success and am confident that all participants will derive immense value from it.

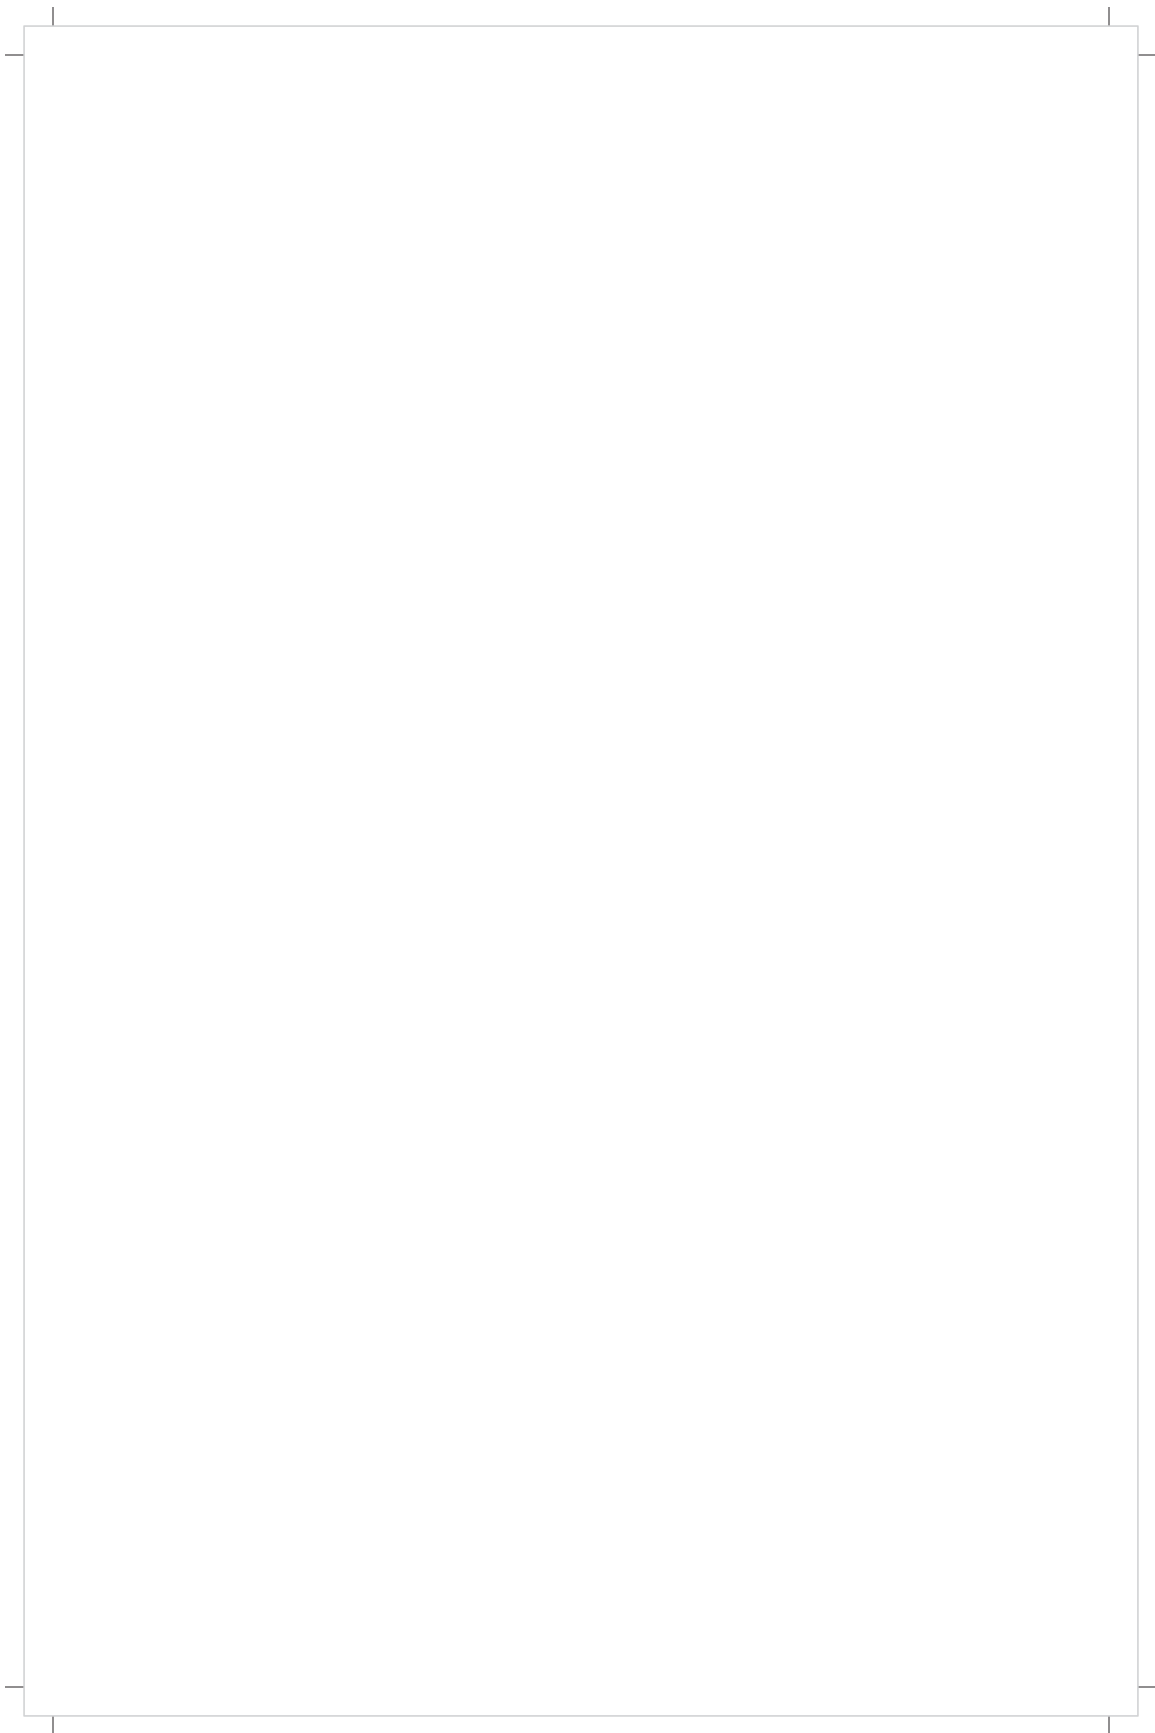

Jyoti Vij

Director General, FICCI

JSW Infrastructure

As part of the US\$24 billion JSW Group, JSW Infrastructure, a key player in India's infrastructure growth, is committed to sustainable development. Positioned as the country's second-largest private port operator with a 170 million tons per annum capacity, JSW Infrastructure leads with strategically located, eco-friendly ports along India's coastal belts. Additionally, we manage 2 O&M contracts and a liquid storage terminal in the UAE, further solidifying our global footprint. These well-equipped ports and terminals, supported by multi-modal evacuation channels, allow us to deliver world-class services that foster exponential growth for our customers.

EXPANDING REACH

We are committed to strategic growth, continually exploring new opportunities in ports and logistics to strengthen our presence.

ADVANCING CAPABILITIES

Operating state-of-the-art ports designed for large vessels, we prioritise sustainable and eco-friendly shipping solutions.

BOOSTING CONNECTIVITY

Focused on enhancing connectivity, we leverage our expertise to move cargo efficiently through coastal shipping and inland waterways.
